Subject: Public facing events - feedback needed!

Hi MT RPMs,

Below is a table with a projected timeline of possible public facing events through April 2018 for your sites. Please give it a quick review and let me know if you have edits or other events we can fill in. I know I am missing some. In addition to public facing events, if there are any significant project milestones, please add those as well.

I will plug this into the regional tracker per regional guidance. Thanks guys!

Jan - Feb
